# *Year 1 Celebration of Learning*

Year 1 are the 'i' in Kind Everyday!

How do you show kindness to others?

We are kind to all our friends on the playground.

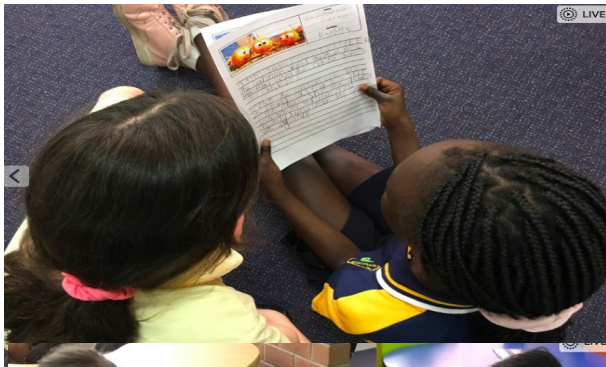

# Year 2

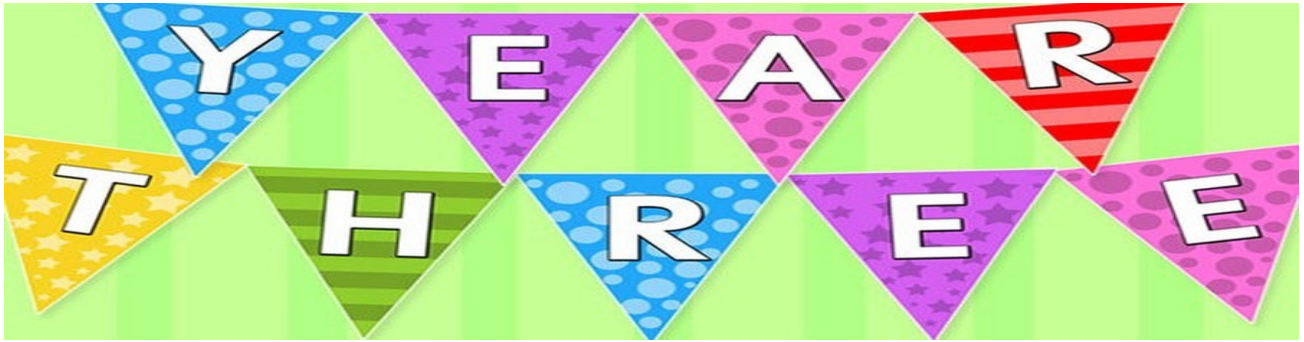

We have been explaining the strategies we are using to problem solve in Maths. We are challenging ourselves by working out doubles, three times as many and four times as many.

We are writing for a purpose and an audience. We showed our partner that their text was entertaining by laughing at the funny parts.

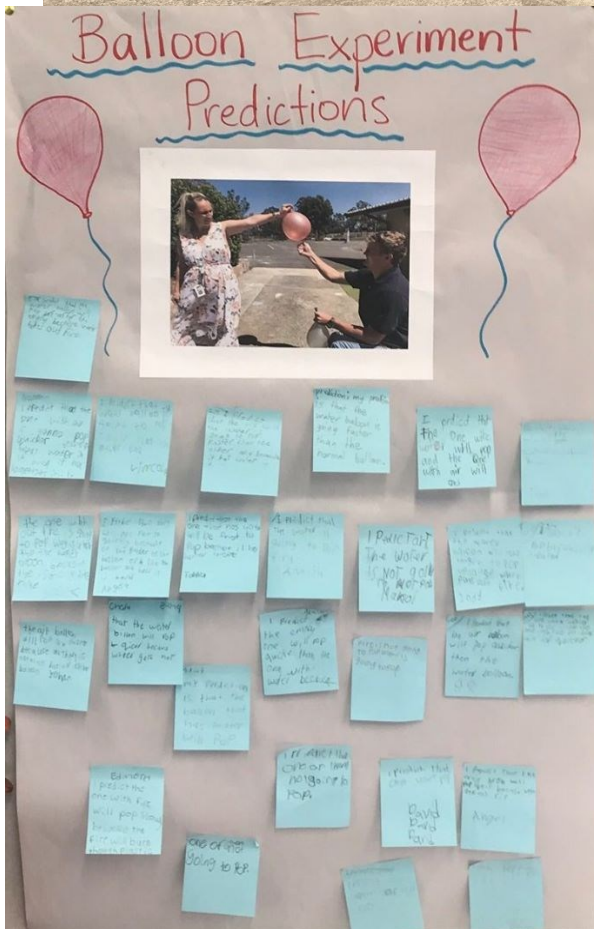

## Year 3 Inquiry Learning

Science experiment - Students predicted whether a balloon full of air or a balloon full of water would pop first when exposed to a flame (heat).

Which balloon do you predict will pop first?

Note: Water is a great conductor of heat.

Here are some happy snaps from our Geography Excursion to Auburn Botanical Gardens where we explored natural and man-made features of Australia and it's neighbours.

---

# Year 5!

6th November 2019

***Student Leadership Program led by Cameron from Explore, Discover, Act.***

This was an exciting opportunity for our next year leaders, as well as our Year 4's, to explore teamwork, communication and perseverance during some challenging tasks.

Students also reflected on the qualities of a leader with responses such as "leaders listen and empathise", "leading is not telling people what to do", "leaders encourage". What a great day of learning!

# YEAR 6

## Year 6 Gymnastics

This term we are very lucky to work with the Gymnastics teachers from Dance Fever to improve our skills. We enjoy our Wednesday lessons and are learning so much each week.
