# Kindergarten

Kindergarten have had special visitors to our garden. The fairies have been leaving us letters and surprises every day. We can't wait to see what they will do next.

During play, we have been exploring the weather in our weather pod for science. We have been observing the weather around us and discussing what we need to wear to suit the weather.

We have been learning to share, take turns and listen to others.

In Mathematic, we have been doing some hard thinking about numbers as well as patterns. We have been explaining and recording our thinking.

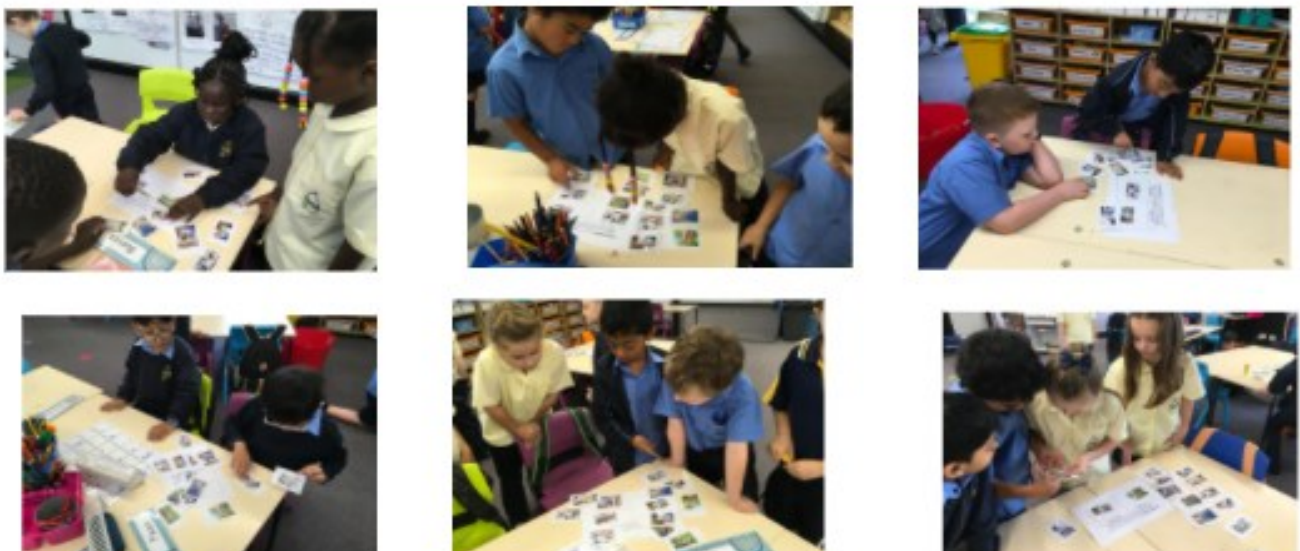

# Year 1 Celebration of Learning

Year One has been learning about Living Things.  
We learnt about what plants need to thrive by experimenting with varying  
their conditions and observing their changes.  
We are excited about our plants growing and changing each day!

In Religion we have been learning about Who is Jesus and positive  
influences in our lives. We have been developing collaborative skills by  
learning how to work together respectfully.

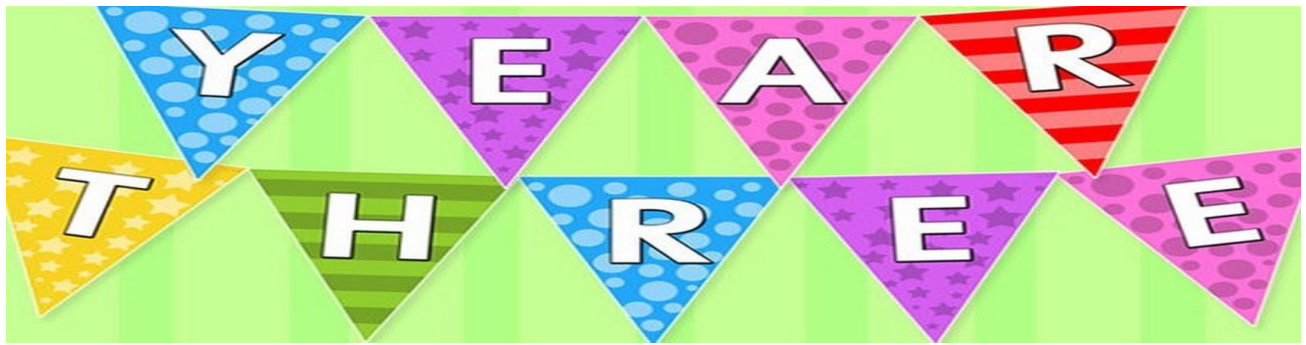

---

# Year 2

YEAR 2 HAVE BEEN LEARNING ABOUT FORCES AND ENERGY.  
WE LEARNT ABOUT PUSH AND PULL FORCES BY EXPERIMENTING WITH DIFFERENT TOYS.  
WE'VE ALSO BEEN LEARNING ABOUT HOW SOUND ENERGY TRAVELS THROUGH THE AIR.  
WE LOVE DOING EXPERIMENTS TO INVESTIGATE HOW ENERGY TRAVELS!

*Year 3 are very excited to be participating in a Netball Clinic every Friday.  
Today we were learning about chest passes.*

year  
4

# MISSION: IMPOSSIBLE

Year 4 have been collaborating in our Inquiry groups conducting scientific experiments.

Working together enhances our success!

At  
SJK  
anything  
is possible  
when we  
work  
TOGETHER!

---

# year 5!

In Science, Year 5 are looking at How We Grow and Adapt.

We conducted an experiment investigating if opposable thumbs are important. In our work groups we decided on 3 tasks involving things we do with our hands every day. We predicted the outcomes and then had lots of fun carrying out the experiment, timing each other completing the tasks, firstly using our thumbs and fingers and then with our thumb taped to our hand.

We found that doing our tasks with our thumb and fingers was, of course, very easy. Our tasks included picking up coins, writing, cutting, doing up buttons, tying shoelaces and opening door handles.

We had lots of laughs when it came to not using our thumbs!

And some things were really hard to do!

The results of our experiment - WE NEED OUR THUMBS!!  
They make everyday things we do so much easier!!

---

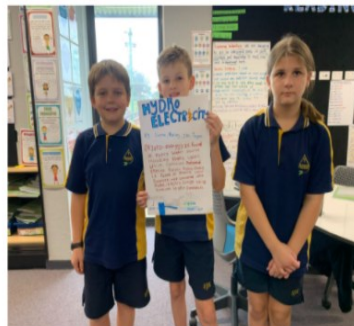

---

# Year 6

## Year 6

This week in Year 6, we have been practicing out passing technique in Netball. We also learnt how to pivot.

This week in Year 6, we have been learning about different types of Energy! Electrical, Mechanical, Thermal, Sound, Hydro and Eolic Energy!
